

## District 2016

**Thank you all who came to cheer us on last night. Your support helped us to our best performance this year as a team. We entered the race ranked 3rd in the State and I was not sure we deserved such a lofty status. But you proved more than worthy throughout the course of the race. We saw several girls step up a notch or two and even those who didn't have their best race of the season could look in the mirror afterwards and say they gave all they had. If we can perform as well in 8 days, the result will be a great State Meet performance and a very happy ride back to City High. Congratulations one and all.**
