126 total racers

**JV 2**

Ankeny Centennial - 36

**City High - 47**

Johnston - 81

Waukee - 98

11 other teams

309 total racers

This is always a fun meet, but it is a challenging meet. The challenge lies in the competition, the course, and the long travel. Many of you handled it very well, and took advantage of the opportunity to race some of the best teams/individuals in the midwest. The JV 2 race gave us an opportunity to have some of our younger athletes feel the “front of the pack” and you took advantage of it. We hope it gives you confidence in your abilities. We saw some gritty, aggressive racing, and your overall team score showed. We finished only 11 points behind the champion and we should take positives from that! The JV 1 team also ran a very gritty race. We had the front runner (congrats Annie!) and the rest of the pack moved up well during the race. Your team also got out aggressive and took advantage of the course and held your place when it mattered the most. We were only 18 points behind the champion and good things continue to happen for this group! The varsity race forces you to go out more aggressive than you have all season. This is good practice for important meets when your place is more important than your time. If you get lost in the mass of racers, it makes it very difficult to move up and be aware of where you are in the race. This is always a learning experience. At this meet a year ago, we finished 6th as a team. We stayed patient with the training, kept positive about the direction we wanted to go and it paid off. Our goal should be to have fun with the experiences we’ve learned and the challenges that lie ahead. We are a special, deep, and talented team. We will continue to improve...let’s have fun with it!
